

David C. Marsh, Principal
Comprehensive Facilities Planning, Inc.

Years Experience: 35

Years with CFP: 15

Education

The Ohio State University, 1960
BS Electrical Engineering
The Ohio State University, 1968
MS Electrical Engineering

Professional Background

As a founding principal, Dave has been with the firm since 1994. He brings considerable knowledge and expertise in the area of space needs analysis and management. He leads the classroom utilization and needs assessments through his analytical and statistical expertise.

Dave has been team leader for many space assessment studies at higher education institutions of all types, including a state-wide system, private colleges, public and private research universities, and community colleges.

Prior to CFP, Dave served as assistant vice president for facility planning at The Ohio State University, where he was responsible for land use planning, capital plan development, space planning and management. The office also maintained the campus inventory and floor plans. Prior to this, he was responsible for facility planning and budget management for the regional campuses and University College at The Ohio State University.

Selected Project Experience

Auburn University - College of Agriculture Space Assessment
Auburn University - Room Inventory & Assess Space Utilization
Auburn University - College of Engineering Space Plan
California State Monterey Bay - Space Management System
Cincinnati State Tech & Community College - Space Utilization Study
Cleveland State University - Space Information Management System
Cleveland State University - Comprehensive Classroom Assessment
DePaul University - Comprehensive Classroom Study
Emory & Henry College - Space Planning Study
Florida Gulf Coast University - Space Planning Study
Georgia State University - Master Plan/Space Utilization Study
Indiana State University - Space Information Management System
Indiana University of Pennsylvania - Space Needs Assessment
Loyola University Chicago - Space Information Management System
Medical College of Ohio - Problem Definition for Space Utilization and POM Funding
William Mitchell College of Law - Strategic Space Plan
Ohio University - Space Planning Process, Biological Sciences
Penn State University - Facilities Space Inventory Update
Rice University - Classroom Study
Rutgers University - Comprehensive Classroom Study
University of Massachusetts - Space Utilization Study
University of Michigan - Engineering Space Utilization Study
University of Minnesota - Comprehensive Classroom Study
University of South Carolina - Classroom Study
University of Massachusetts - Space Utilization Study
University of West Florida - Master Plan and Space Assessment
University of Wisconsin-Oshkosh - New Academic Building Program
Wake Forest University - Space Utilization Study
Western Kentucky University - Comprehensive Classroom Study
Yale University - Facilities Space Inventory Update
Youngstown State University - Campus Space Utilization Study

Selected Presentations

Space Assessment Database and Mapping: Penn State Model - 1999 Facilities Planning Conference, Penn State
Comprehensive Study of Classroom Requirements: Planning for the Future - Society for College and University Planning, 1995 Annual Conference

Integrating, Academic, Budget and Facility Planning
Facilities Planning Conference (1992), The Ohio State
University, Space Cost Budgeting
Facilities Planning Conference (1988), Univ. of Virginia
Charging for the Use of Academic Space
Council of Educational Facility Planners International,
1987 Annual Conference

Graduate Seminar Instructor

“Architecture of the Academic Community: An Exploration
of the Planning and Design of the University Campus”,
Department of Architecture, The Ohio State University,
Summer Term, 1994.
